Dedicated Expertise.

TURNKEY EXPERTISE

Our strength and expertise lies in delivering full turnkey solutions to the processing and manufacturing industry. Our engineering and project management expertise is amongst the best in the world and we are the only turnkey designer and manufacturer in South Africa.

We are highly regarded for our ability to develop high quality equipment to ultra-hygienic standards and have a great depth of turnkey expertise in the pharmaceutical, personal care, food and beverage industries. Our depth of knowledge and understanding of the specific and unique requirements in each of the various processing industries, has allowed us to develop tailored solutions for many other industries, including dairy and chemical.

OUR CUSTOM-BUILT PRODUCTS AND TURNKEY SOLUTION OFFERING INCLUDES

- innovative and cost-effective options for client consideration and comment
- process and layout design using Computer-Aided Design technology,
- the manufacture of the plant including automation, fabrication, site installation, commissioning and staff training
- GAMP documentation (including FAT, IQ and OQ).
- Our extensive range of customised mixing equipment is a core strength and an integral part of our project turnkey work. Its the foundation on which our reputation has been built. We have conceptualised, designed and manufactured mixing vessels to exacting standards, over many decades.
- Expertise in hygienic design, manufacture to small tolerances and minimal product wastage
